

WEEKLY CITIZEN.

SATURDAY, MAY 14, 1937.

LOCAL NEWS.

The Rink will be open every day this week, and Monday, Tuesday and Wednesday. Plenty of amusement for all.

Mr. and Mrs. L. N. Towne are visiting in the city from Calistoga. Mr. Towne is superintendent of the Santa Rita Land & Cattle Co.

Mrs. Robert Carman and family left Saturday last for their old home in Santa Monica, where they will reside during the summer months.

A copy of the new marriage law has been received by the board of supervisors. It takes effect July 1st and not immediately after the approval by the governor as the law originally reported to have been amended.

Lieut. Patch, R. Q. M., 4th Cavalry, has been ordered to appear before a court-martial upon his own application. After his retirement Lieut. Patch will assume the management of the hotel and post-travel business for Mrs. Fort at Fort Huachuca.

The universal language called "Volapuk" is already in use by 10,000 people of various nationalities. Its grammar can be learned in an hour and its account of this new tongue will be given by Richmond Walker in the June number of the American Magazine.

Hon. A. J. Moran, Al. Rhodes and Mr. Coddell of Florence arrived last evening by private conveyance and remain a day or so. Mr. Moran was the republican leader in the House last winter, and is at present running the House at Florence.

There is positively nothing new relative to the train robbery. Four men all told, have been arrested, but thus far no proof has been obtained that in any way connects them with the robbery. The fourth man, named, is a brother of the party that was arrested at Bowie several days since.

An alarm of fire sounded by a volunteer of black smoke at the corner of Alameda street sent hundreds of people running in that direction. Crowded carriages, Jack Bolin's big truck and a ladder were all in the line, and the firemen were busy with the fire. The fire was extinguished by the firemen.

Judge Lovell and several other gentlemen went to Pima canyon yesterday to investigate the reported big water find, but found nothing to pay attention to. They did, however, lose one of their number, W. B. Murphy, who footed it to town. The judge on his return undertook to head a searching party and but for a broken piece of harness would have been back in the hills at midnight. Mr. Murphy in the meantime had reached home to the joy of all parties concerned.

There is a rumor in town today that J. E. Dixon late proprietor of the Raza House is missing. It is said that since he went to Arizona to look at some mining property he has not been seen. While there he lost a horse, so the report goes, and started off with a Mexican as a guide to find it. He attempted to return home alone, it is said to have been about 4 days ago, since which time he has not been seen. The search team has been found. No conclusion can be reached pending the arrival of more definite information.

On Saturday night a blooming damsel from Madison Lane appeared before his honor Judge Meyer, whom they brought to adjudge a legal difference between them. The damsel, who was way listed kindly to the four and takes all being told stories of battered cheeks and broken windows. Finally the judge who was writing the record in the matter laid aside his pen and leaned back in his chair and said "now let me ask a while" you three can go and to the fourth you pay ten dollars or go to jail in the jug, the blooming damsel turned slightly away from the court winked at the spectators, went over her stockings and produced three big silver dollars, but as this was insufficient to appease the worth of the law Constable Billy Lucas, who was the company her. In due time the amount was dug up and the majesty of the law vindicated.

Mr. R. J. Kerr returned yesterday from a trip to Tres Alamos on the San Pedro, which place he is reported to have 1400 head of cattle in the San Pedro Cattle Company. He reports an earthquake there not less than twenty-five miles in length. It extended a short distance below Benson to fully 15 miles below Tres Alamos. At the surface the crack was in width from about six to eighteen inches. On one side the earth has sunk several inches. In places along the crack water burst forth and afterwards ceased flowing.

The crack in many places is still in the depth of several feet. Mr. Kerr says that at the place where the Tres Alamos road crosses the fissure he could see where parties had driven to it, but being afraid to cross, had turned and gone back. As Mr. Kerr is reliable this is an earthquake news that can be depended upon.

A young man giving the name of A. O. Nelson, but who on being questioned said his right name is August Abrahamson, was brought to Tucson Saturday evening by Mr. Hernandez Robles who reported having found the man wandering aimlessly on the plains near his ranch about 15 miles south of Tucson. The man was entirely naked and wildly insane. He was placed in the county jail. He is quite harmless, and at intervals talks rationally. He says he came to the territory as a canvasser for a book entitled "The Museum of Antiquities." After being here a short time he joined the Methodist church and the Good Templars, but becoming financially straitened he undertook to walk to Denver, Colorado, where he says his mother resides. It is time in jail is occupied by attempting a solution of the earthquake problem, which he thinks will be of great value to the world and mankind generally. It is thought that a few days rest will bring him out all right.

A Good Feature. Immediately after the earthquake yesterday the water came bubbling from the hillsides on the Abbott ranch, Sulphur Spring Valley, from where water has never been seen. The extent of the water line is about a mile. The present time sufficient water is running from the recent exposed seams to supply one hundred thousand head of cattle. In one place in particular far up on the mountain side a stream of pure water is belching forth from the hillsides fully ten inches in diameter, and at present shows no signs of ceasing. Shows the water supply continues, this will be the most valuable ranch in Arizona. Mr. Paschally says there is at present time sufficient water to irrigate one thousand acres of land. This is one of the pleasant and peculiar features of yesterday's earthquake.—Tombstone Epitaph.

Renews Her Youth. Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been married for 40 years, and am able to do all my own housework. I owe my thanks to Eucalypti Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, only \$1 at Geo. Martin's Drug Store.

The Wonderful Healing Properties of Darby's Prophylactic Fluid. Wherever a preventing, healing, cleansing and deodorizing injection or wash is required use Darby's Prophylactic Fluid. Any inflamed surface, external or internal, treated with the Fluid will be quickly relieved. It has effected cures that resisted the best medical skill.

Palace Meat Market. Fresh meat of all kinds; beef, mutton, pork, fish, etc., choice meats, delivered to any part of the city without extra charge. Phone 2222, Congress street.

The Proposed Cattle Trail.

Messrs. John H. Slaughter, C. M. Bruce and Brewster Cameron, the committee appointed by the Tombstone Stock Growers' Association to consider the feasibility and practicability of establishing a cattle trail from Arizona to Wyoming and Montana, have made the following report, which we copy from the Epitaph.

Hon. W. V. Vickrey, President of the Tombstone Stock Growers' Association of Cochise county, Arizona.

Sir: The committee, appointed to inquire into the feasibility of establishing a cattle trail from this territory to the range of Wyoming and Montana, beg to submit the following report:

During the past four weeks the committee has been examining the question of establishing a trail. Upon information received from the Tombstone Stock Growers' Association, we respectfully submit that a cattle trail from Arizona to Wyoming and Montana is entirely practicable, there being an abundance of grass and water along the route, and the rights of settlers will not be encroached upon. It will require about two months to locate the trail, and the approximate cost will be one thousand dollars, as follows:

Services of two experienced men to locate trail, at \$3 each per day for 60 days. \$360.00
Purchase of five horses at \$40 each. \$200.00
Hire of packer, 60 days. \$200.00
Barley on route. \$50.00
The fare of three men returning home. \$200.00
Incidental expenses. \$100.00
Total. \$1,110.00

Less amount received for the horses at end of trail. \$100.00
Approximate cost. \$1,010.00

As a trail would insure a large increase in the value of the Territory, we respectfully suggest that the territorial local associations in Arizona be requested to pay an equal share of the expense of the proposed trail. The Territory, the tax upon each would be comparatively light. We therefore recommend that a committee be appointed to represent the several county and local associations of the Territory the interest of Arizona in establishing a cattle trail to the North, and to solicit their aid and co-operation to that end.

It is essential that the trail be located before the coming winter, for the northern buyers start cattle on the trail about the first of February. The trail should also be located as early as possible, so that a map of the same can be submitted to the cattlemen of the north and buyers be solicited to come and purchase in time for the drive in 1938.

Your committee are confident that the superior cattle in Arizona and their entire freedom from disease would make a constant demand for the remembrance prices, were a proper trail established to the fattening ranges of the North.

Very respectfully,
C. M. BRUCE,
JOHN SLAUGHTER,
BREWSTER CAMERON.

The Fancy Dress Carnival.

A brilliant and fashionable affair was the Fancy Dress Carnival on last Saturday evening—the attraction being a fancy dress carnival with prizes for successful participants. By unanimous desire Wm. Zeckendorf, Col. Lowell H. Jerome and J. N. Mason were chosen judges and awarded the various prizes as follows:

First Prize—An elegant silver cup—Miss Zettie Eakles.

Second Prize—A broad plush arm clock—Arthur A. Smith.

Third Prize—Writing desk—Miss F. E. Eakles.

Fourth Prize—A gold watch—Miss F. E. Eakles.

Fifth Prize—A gold watch—Miss F. E. Eakles.

Sixth Prize—A gold watch—Miss F. E. Eakles.

Seventh Prize—A gold watch—Miss F. E. Eakles.

Eighth Prize—A gold watch—Miss F. E. Eakles.

Ninth Prize—A gold watch—Miss F. E. Eakles.

Tenth Prize—A gold watch—Miss F. E. Eakles.

From some cause or other the fourth prize, awarded to J. A. Anderson, was not claimed. The management would request Mr. Anderson to call at J. A. Hise's jewelry store and receive his prize.

All in all, the carnival was a magnificent success and augurs well for the rink business next winter.

Honors Easy.

Elsewhere we comment on the Benson correspondent of the Associated Press. Since reading the following which appeared in the Los Angeles Herald, we are inclined to believe him easy between Tucson and Benson. Possibly the correspondent shook hands over the wires. The one, however, is a bit of bright boyhood and is by its absurdity and grotesqueness, in the Benson boy-nobs. Sail in young men with the best man on top.

Tucson, A. T., May 13.—Another violent earthquake is reported to have occurred in the San Jose mountains, forty miles south of Fort Huachuca, in Sonora. General Forester has sent another expedition party to investigate. The party has just returned from the Santa Catalina mountains and report the canyon full of water brought to the surface by the earthquake. This is a great boon for this region, as there are thousands of acres of good farming land at the base of the mountains which only need water to make them valuable. Another good effect of the earthquake is the opening of two large gold veins which were discovered in the Santa Catalina Mountains at a point where the whole side of the mountain slid down. Several prospecting parties left today to locate claims.

The Earthquake in Hermosillo.

HERMOSILLO, Sonora, Mex., May 7. EDITOR CITIZEN:—On the 31st inst, we also had a severe earthquake shock, lasting maybe two minutes—not more. In about two hours another of less violence and violence shook the city for two or three hours. Sufficient to cause quite a scare amongst the ladies and cause them to jump and run from home to home. In the morning, things looked as if about to fall, but no other damage was done, thus a big scare. Last night at 11 o'clock we had a very distinct shock, heard by all buildings cracked and windows shattered.

This morning about half past nine, we experienced another similar to the one last night.

The first, on the 31st inst., would pass almost anywhere for a regular earthquake.

Health here is good. No news worth writing; when there is I shall tell you. Faithfully yours,
PAUL GREGORY, M. D.

The Wonderful Healing Properties of Darby's Prophylactic Fluid.

Wherever a preventing, healing, cleansing and deodorizing injection or wash is required use Darby's Prophylactic Fluid. Any inflamed surface, external or internal, treated with the Fluid will be quickly relieved. It has effected cures that resisted the best medical skill.
